

Pet Health Checklist

Following is a list of healthy, normal characteristics your pet **should always** exhibit.

- Acts normally - active and in good health.
- Breathes normally, without straining or coughing.
- Has a normal appetite with no chewing or swallowing difficulty.
- Urinates and has bowel movements in the usual amounts and frequency.
- Walks without stiffness or pain.
- Has healthy feet and short nails.
- Has a full, glossy coat, free from dry flakes and not greasy.
- Is free from fleas, ticks, lice or mites.
- Has ears that are clean and debris free.
- Has bright, clear eyes, free of matter and nose free from discharge.
- Has clean white teeth free of plaque and calculus, pink gums with no redness and non-offensive breath
- Is free from lumps/bumps as I run my hands over his/her body.

Please **call if your pet is NOT exhibiting** one or more of these healthy, normal traits.
